

Preliminary eye test (for air traffic controller recruitment/selection)

Last and first name Date of birth.....

Address

Phone no. (home, mobile) Email address

Anyone wishing to become an air traffic controller must meet the medical requirements specified by Eurocontrol in its *European Class 3 Medical Certification of Air Traffic Controllers* directive. To this end, you must have your eyes tested by an ophthalmologist/optometrist or optician, get them to **complete this form in full** and include it in your application. You will have to pay for the cost of this examination yourself.

Relevant medical history:

Defective vision, eye-related illnesses, operations (in the case of operations to correct defective vision, please include the relevant medical report)

Examination findings

Glasses worn?

Yes No Lens type: single-vision bi-/trifocal progressive half-eye

Contact lenses worn?

Yes No Lens type: single-vision bi-/trifocal (not allowed)

Distant visual acuity	Distant visual acuity			Near visual acuity 30-50 cm	Near visual acuity		
	Uncorrected	Corrected with glasses	Corrected with contact lenses		Uncorrected	Corrected with glasses	Corrected with contact lenses
Right eye (min 0.7)				Right eye (min 0.5)			
Left eye (min 0.7)				Left eye (min 0.5)			
Both eyes (min 1.0)				Both eyes (min 0.5)			

Current visual correction (for contact lens wearers, please give values for lenses and glasses):

Glasses	SPH	CYL	AXIS	ADD	Max. SPH correction: +5.0/-6.0 dioptres Max. CYL correction: +/- 2.0 dioptres Max. anisometropia: 2.0 dioptres
Right (OD)					
Left (OS)					

Contact lenses	SPH	CYL	AXIS	ADD	Max. SPH correction: +5.0/-6.0 dioptres Max. CYL correction: +/- 2.0 dioptres Max. anisometropia: 2.0 dioptres
Right (OD)					
Left (OS)					

Colour perception: Ishihara 24, plates 1-15: recognized without errors: Yes No

(If Ishihara Test not passed, further testing required.)

Binocular vision: Yes No

Ocular muscle balance: Normal

Distant 6 metres	Hyper Max. 2 dioptres	Eso Max. 10 dioptres	Exo Max. 8 dioptres	Near 33 cm	Hyper Max. 1 dioptre	Eso Max. 8 dioptres	Exo Max. 12 dioptres

Oculare operation: Yes No

Should this question be answered in the affirmative, please add the medical certificate with the findings of your visual acuity examination before the ocular operation and other examination documents to your online application.

Place and date

Stamp and signature of medical examiner
