

ATSEP QUALIFICATION SHARED

The ATSEP Qualification Shared Training course is designed to impart fundamental knowledge and skills in Human Factors, Safety Management and Health and Safety in the CNS/ATM environment.

Introduction

Skyguide delivers the ATSEP Qualification Shared (QUAL SHR) Training course at its modern training center premises located in Wangen near Zurich. The skyguide training center is certified as a training organization in accordance with the European Commission Regulations, and offers a wide range of ATM/ ANS training products. The highly qualified and professional instructor with international operational and pedagogical experience, in combination with the most modern and state-of-the-art training equipment enhances the participants training experience. The QUAL SHR Training course content is in line with the EUROCONTROL Specifications for the ATSEP Initial Training and is compliant with the European Commission Regulation 'EU CR 2017/373'. The course is strongly focusing on the operational environment.

To fulfil the minimum training requirement defined by the EUROCONTROL Specification, each future ATSEP has to successfully pass the ATSEP Basic course, one stream out of the corresponding domain COM, NAV, SUR, DAT and the *Qualification Shared course*.

This course may be delivered at the customers premises if required.

Attendees

The QUAL SHR Training course is designed for ATSEP employees, technicians and engineers from ANSPs, the technical industry, Civil Aviation Authorities and National Supervisory Agencies, working on operational and safety related systems and equipment.

Pre-requisites

In order to successfully complete the course and pass the final exam, an adequate English level (KET and higher) and a technical background or education is required. The successful pass of the ATSEP Basic Training course is eligible.

Method

Classroom training using modern learning methods and tools, with practical exercises.

Course Structure and Design

The course is designed in a modular form, which supports best the learning process and progress of the participants.

The course syllabus contains the QUAL SHR training objectives that are common to all ATSEP Qualification Training Domains and consists of the following Subjects:

- Safety (SHR SAF)
- Health and Safety (SHR HAS)
- Human Factors (SHR HUM)
